上海孜迈防护科技有限公司
SHANGHAI ZIMAI SAFETY TECHNOLOGY CO., LTD.

ABOUT US

ZIMAI, as a manufacturer and supplier of Personal Protective Equipment since its founding in Shanghai, China, has now expanded its product ranges to the field of Health, Security, Emergency Response, Environmental Protection, Ergonomics, Hazard Controls and Home & Community.

Being a professional supplier of PPE, ZIMAI provides one-stop purchase services to all the customers for products ranging from head protection to foot protection, with good quality and in time delivery. In the meantime, ZIMAI dedicates its effort in product certifications, which leads the result that most products of working gloves, safety shoes, masks and Hi-Vi workwears are CE certified. And for other range of PPE, ZIMAI shares tests & certifies with strategic suppliers in China.

ZIMAI values customers the most, and takes quality as the priority. A Quality Management System has

already been established to provide a framework for measuring and improving the company's performance. The company has been certified to ISO 9001:2015 and ISO 14001:2015, and some of our plants also have been audited in accordance with SEDEX and BSCI, which provides our customers the security for products quality and traceability.

Based on years of experience in PPE field and the strong ability in supply chain, ZIMAI starts to introduce the new product ranges such as medical devices and other Health & Engineering related safety equipments to the market.

ZIMAI will always be committed to the field of life safety and safety protection!

ZIMAI Safety, Your first choice!

Your safety, Our success!

EN standard for Protective gloves

Category of the Personal Protective Equipment (PPE).

The Personal Protective Equipment (PPE) are classified in three different categories as per the Regulation (EU) 2016/425:

CATEGORY I

This category of PPE are often products of relatively simple design. Includes exclusively the following minimal risks: superficial mechanical injury; Contact with cleaning materials of weak action or prolonged contact with water; contact with hot surfaces not exceeding 50 °C; damage to the eyes due to exposure to sunlight (other than during observation of the sun); atmospheric conditions that are not of an extreme nature.

CATEGORY II

Includes risks other than those listed in Categories I and III.

CATEGORY III

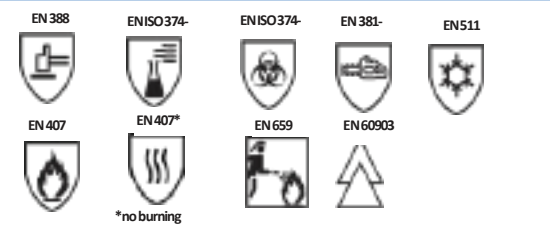

This category of PPE provides protection against the highest risks. Includes exclusively the risks that may cause very serious consequences such as death or irreversible damage to health relating to the following: substances and mixtures which are hazardous to health; atmospheres with oxygen deficiency; harmful biological agents; ionising radiation; high-temperature environments the effects of which are comparable to those of an air temperature of at least 100 °C; low-temperature environments the effects of which are comparable to those of an air temperature of –50°C or less; falling from a height; electric shock and live working; drowning; cuts by hand-held chainsaws; high-pressure jets; bullet wounds or knife stabs; harmful noise.

MARKING& CONFORMITY ASSESSMENT PROCEDURES

PPE	Design	Production	Marking
Category I	Module A	Module A	CE
Category II	Module B*	Module C	CE
Category III	Module B*	Module C2 or D*	CE + mark

nnnn –identification number of the Notified Body in charge of the control procedure (Module C2 o D).

EUROPEAN STANDARDS FOR GLOVES

EN ISO 21420:2020 – General requirements and test methods for Protective gloves.

This standard establishes the general requirements and the appropriate test procedures for the construction and design of the glove. The standard also specifies the marking and the applicable pictograms for each particular case.

EN 388:2016/A1:2018 – Protective gloves against mechanical risks.

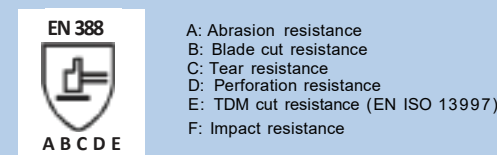

This standard applies to all types of protective gloves intended to protect against mechanical and physical risks caused by abrasion, blade cutting, tearing and perforation.

In the following table, the performance of the gloves are classified according to the minimum values for each level.

TEST	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4	LEVEL 5
Abrasion resistance (cycles)	100	500	2000	8000	-
Blade cut resistance (index))	1,2	2,5	5,0	10,0	20,0
Tear resistance (N)	10	25	50	75	-
Perforation resistance (N)	20	60	100	150	-

TEST	LEVEL A	LEVEL B	LEVEL C	LEVEL D	LEVEL E	LEVEL F
TDM Cut resistance (N)	2	5	10	15	22	30
Impact resistance	P if meet and pass the test					

Marking Pictograms

A value of 0 indicates that the glove is below the minimum performance level for the individual risk.
An X value indicates that the glove has not been tested, the test method is not suitable for the design / material of the glove or that the glove has not been designed to be used against that risk.

EN ISO 374:2016/A1:2018 – Protective gloves against dangerous chemicals and microorganisms.

EN374-2 Reistance to penetration

Penetration is a physical process whereby a liquid or air penetrates a fabric by passing through pores, seams or pinholes in the fabric.

EN374-1 Reistance to permeation by chemicals

Permeation is a process by which a potentially hazardous chemical moves through a material on the molecular level. In the laboratory, permeation is measured by a parameter called breakthrough time.

CODE LETTER	CHEMICAL SUBSTANCE	CLASS
A	Methanol	Primary alcohol
B	Acetone	Ketone
C	Acetonitrile	Nitrile compound
D	Dichloromethane	Chlorinated hydrocarbon
E	Carbon disulphide	Sulphur containing organic compound
F	Toluene	Aromatic hydrocarbon
G	Diethylamine	Amine
H	Tetrahydrofuran	Heterocyclic and ether compound
I	Ethyl acetate	Ester
J	n-Heptane	Saturated hydrocarbon
K	Sodium hydroxide (40%)	Inorganic base
L	Sulphuric acid (96%)	Inorganic mineral acid, oxidizing
M	Nitric acid (65%)	Inorganic mineral acid, oxidizing
N	Acetic acid (99%)	Organic acid
O	Ammonium hydroxide (25%)	Organic base
P	Hydrogen peroxide (30%)	Peroxide
S	Hydrofluoric acid (40%)	Inorganic mineral acid
T	Formaldehyde (37%)	Aldehyde

PERMEATION – PERFORMANCE LEVELS	
Breakthrough time	Performance level
> 10 min	Level 1
> 30 min	Level 2
> 60 min	Level 3
> 120 min	Level 4
> 240 min	Level 5
> 480 min	Level 6

The new standard specifies three levels of protection based on permeation performance. Gloves will be classified as Type A, Type B or Type C, and labelled accordingly with new pictograms. Type A gloves provide the highest protection.

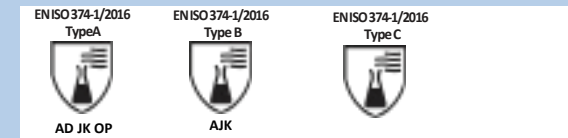

Type A- At least level 2 performance (more than 30 mins) against at least 6 chemicals on the list.

Type B- At least level 2 performance (more than 30 mins) against at least 3 chemicals on the list.

Type C- At least level 1 performance (more than 10 mins) against at least 1 chemicals on the list.

Performance level	1	2	3	4	5	6
Breakthrough time (min)	>10	>30	>60	>120	>240	>480

Pictograms for chemical protective gloves.

EN 374-5 – Protective gloves against dangerous chemicals and microorganisms. Protection against bacteria and fungi can be claimed if penetration (EN 374-2:2013) and EN 420 general requirements are met. It is possible to declare that a glove provides protection against viruses if it meets the requirements of ISO 16604:2004 procedure B.

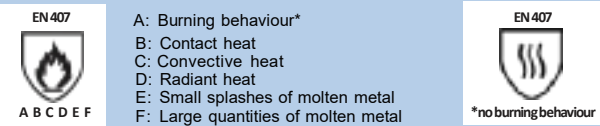

Marking Pictograms

EN 407:2020 – Protective gloves against thermal risks (heat and/ or fire)
This standard specifies the requirements and test methods for gloves against heat and / or fire.
In the following table, the performance of the gloves is classified according to the minimum values for each level

Test	Result measured in	Results			
		LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4
A After-burn time	Seconds	≤ 20	≤ 10	≤ 3	≤ 2
A After-glow time	Seconds	infinity	≤ 120	≤ 25	≤ 5
B Contact heat	Temp in °C after 15sec	100°	250°	350°	500°
C Convective heat	Seconds	≥ 4	≥ 7	≥ 10	≥ 18
D Radiant heat	Seconds	≥ 7	≥ 20	≥ 50	≥ 95
E Drop of molten metal	Number of drops	≥ 10	≥ 15	≥ 25	≥ 35
F Molten metal	Gram	30	60	120	200

Marking pictogram.

A value of 0 indicates that the glove is below the minimum performance level for the individual risk.
An X value indicates that the glove has not been tested, the test method is not suitable for the design / material of the glove or that the glove has not been designed to be used against that risk.

EN 12477:2001/A1:2005 – Protective gloves for welders
Protective gloves for welders protect hands and wrists during welding processes and related tasks. They protect against small drops of molten metal, short-term exposure to a limited flame, convective heat, contact heat and UV radiation emitted by the arc. They also offer protection against mechanical aggressions.

Welder's gloves are classified in two types:
1. Type A: lower dexterity (with the other properties enhanced)
2. Type B: higher dexterity (with the other properties diminished)

These gloves must meet the following requirements:

PROPERTY	MINIMUM REQUIREMENT		
	EN STANDARD	TYPE A	TYPE B
Abrasion	EN 388	2	1
Blade cut	EN 388	1	1
Tear	EN 388	2	1
Perforation	EN 388	2	1
Flame behaviour	EN 407	3	1
Contact heat	EN 407	1	1
Convective heat	EN 407	2	-
Small splashes of molten metal	EN 407	3	2
Dexterity	EN 420	1	4

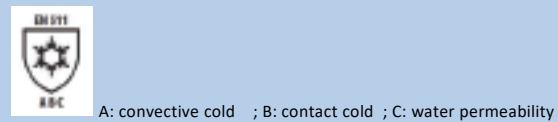

Marking pictogram.

EN 511:2006 – Protective gloves against cold.
This standard defines the requirements and test methods for protective gloves against convective or conductive cold up to -50°C. This cold may be linked to weather conditions or an industrial activity.
In the following table, the performance of the gloves is classified according to the minimum values for each level.

TEST	LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4
Convective cold (Thermal Isolation ITR(m²KW))	0.10 ≤ ITR < 0.15	0.15 ≤ ITR < 0.22	0.22 ≤ ITR < 0.30	0.30 ≤ ITR
Contact cold (Thermal Resistance R (m²KW))	0.025 ≤ R < 0.050	0.050 ≤ R < 0.100	0.100 ≤ R < 0.150	0.150 ≤ R
Water penetration (no water penetration for 30 min)	1 PASS	0 NO PASS		

Marking pictogram.

EN 659:2003+A1:2008 – Protective gloves for firefighters

These gloves allow working for a long time in dangerous conditions and are intended to protect against the risks associated with the tasks of firefighting and rescue (exposure to heat and flames, abrasions, cuts, punctures, exposure to water and chemicals, etc.) and, although they are not specifically intended for protection against liquid chemicals, they provide some protection against accidental contact with these products.

Gloves for firefighters must meet a series of mechanical and thermal requirements. Note - For thermal requirements, the only requirement that appears as a selection criterion is convective heat, since flame resistance requires the highest level of performance according to EN 407 and the other requirements are not classified by levels of performance.

The gloves for firefighters will present resistance to the penetration of H2SO4 (30%), NaOH (40%), HCl (36%) and Heptane during at least 10 seconds.

If required, the glove material will be tested to determine the resistance to water penetration. The levels of performance are those of the following table:

EN 420		Min. Value	Performance level		Breakthrough
Dexterity			1	30	
EN 388		Min. Value	2		60
Abrasion			3	120	
Blade cut			2	180	
Tear			3		
Perforation			3		
EN 407		Min. Value	Marking pictogram		
Flame behaviour					
Convective heat					
Radiant heat (40 kW/m2)					
Contact heat (250°C)					
			EN 659		
					

Marking pictogram

EN 381-7:1999 – Protective clothing for users of hand-held chainsaws.

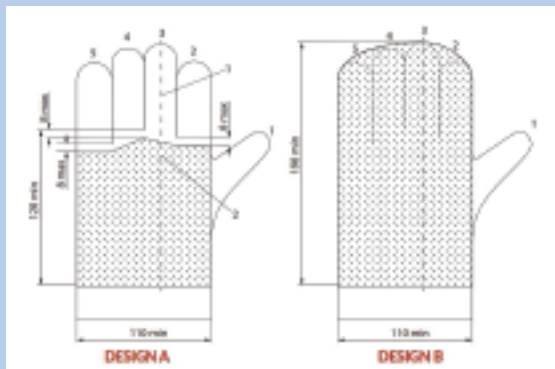

The protection against cutting by a chain saw must be evaluated according to what is indicated in the Standard EN 381-4, with the following chain speeds:

CLASS	SPEEDS
0	16 m/s
1	20 m/s
2	24 m/s
3	28 m/s

When performing the cut resistance test, in accordance with said standard, no cut is allowed through any of the test pieces:

DESIGN A: Is applied to the five-finger gloves, without protection against chainsaw cut on the fingers nor thumb.
Left hand gloves: the protective requested area correspond with the back of the hand and is shown in figure 1.
Right hand glove: no protective area is requested. Although, if that protection is offered, it must be, at least, equal to the one requested for the left hand.

DESIGN B: Is applied to the protective glove or mittens with a requested protection equal to the Design A, but it also must include the back of the fingers, except the thumb.
Left hand gloves: the protective area correspond to the whole back of the hand, including the fingers, except the thumb and it is shown on figure 2.
Right hand gloves: no protective area is requested. Although, if that protection is offered, it must be, at least, equal to the one requested for the left hand.

Moreover, the chainsaw protective gloves must meet the following requirements as per EN 388:

Marking pictogram

Testing Item	Minimum requirement Level
Abrasion resistance	2
Blade cut resistance	1
Tear resistance	2
Puncture resistance	2

Note: in case only one glove of the pair offers protection against the chainsaws, the pictogram should only be placed on the protective glove.

Skin-Friendly Ultrathin PU Gloves

18 gauge seamless blue nylon liner
Blue water ultrathin PU coated on palm
Size available: 7/S-11/XXL

Model:52000

Skin-Friendly Ultrathin PU Gauntlet Gloves

18 gauge seamless blue nylon liner
Blue water ultrathin PU fully coated
Length:30cm
Size available: 7/S-11/XXL

Model:52030

Winter Breathable Foam PVC Gloves

15 gauge seamless black nylon with 7
gauge acrylic liner
Black foam PVC 3/4 coated
Size available: 7/S-11/XXL

Model:36110

Winter Breathable Foam PVC Anti-Cut Gloves

15 gauge seamless yellow nylon & HPPE with 7
gauge acrylic liner
Black foam PVC 3/4 coated

Model:36120

Water-Based PU Gauntlet Winter Gloves

18 gauge seamless blue nylon liner+7 gauge blue
acrylic liner
Blue water ultrathin PU fully coated
Length:30cm
Size available: 7/S-11/XXL

Model:52130

Arc-Flash Gauntlet Gloves

15 gauge seamless yellow Aramid knitted liner
Black/yellow neoprene coated .
Sandy finish on palm & back
Length:30cm
Size available: 7/S-11/XXL

Model:37000

Anti-Cut & Anti-Chemical & Anti-Impact Gauntlet Gloves

15 gauge seamless Aramid & steel wire liner
Black/red NBR & PVC fully coating
Sandy finish on palm & back
TPR protection on fingers and back
Length:30cm
Size available: 8/M-11/XXL

Model:37100

Heavy Duty Anti-Chemical Gauntlet Gloves

15 gauge seamless cotton liner
Blue PVC fully coated with sandy finish on palm &
back
Length:30cm
Size available:7/S-11/XXL

Model:36530

Esd & Chemical Resistant Gauntlet Gloves

15 gauge seamless black cotton with static wire liner
Black PVC fully coated
Sandy finish on palm & back
Length:30cm
Size available: 7/S-11/XXL

Model:36400

Breathable Foam PVC Gloves

15 gauge seamless black nylon knitted liner
Blue foam PVC palm coated
Size available: 7/S-11/XXL

Model:36100

Light Duty Anti-Chemical Gauntlet Gloves

13 gauge seamless cotton liner
Brown PVC fully coated with sandy finish on palm &
back
Length:30cm
Size available:7/S-11/XXL

Model:36200

Light Duty Anti-Chemical Gauntlet Gloves

13 gauge seamless T/C liner
Grey PVC & graphene fully coated with sandy finish
on palm & back
Length:30cm
Size available:7/S-11/XXL

Model:36210

Light Duty Anti-Chemical Long Sleeve Gloves

15 gauge seamless cotton liner
Blue smooth & sandy PVC coated with PVC long cuff
Length: 30+32cm

Model:36770

Anti-Cut Heavy-Duty Anti-Chemical Gauntlet Gloves

Seamless cut resistant liner
Black smooth and sandy PVC & NBR coated
Length:38cm
Size available:8/M-12/XXXL

Model:36535

Anti-Chemical Winter Gauntlet Gloves

Cotton fabric plus plastic foam laminated liner
Hi-vi orange PVC sandy coated
-60 °C cold protection can contact with Liquid nitrogen
Length:30cm
Size available: 8/M-11/XXL

Model:36800

Anti-Chemical Winter Gauntlet Gloves

13 gauge seamless cotton and 7 gauge acrylic liner
Brown PVC sandy coated
Length:30cm
Size available: 8/M-11/XXL

Model:36810

Moderate Duty Anti-Chemical Gauntlet Gloves

18 gauge seamless nylon liner
Green smooth & black sandy PVC/NBR coated
Length:30cm
Size available:7/S-11/XXL

Model:36410

Moderate Duty Anti-Chemical Gauntlet Gloves

15 gauge seamless nylon liner
Red smooth & black sandy PVC/NBR coated
Length:30cm
Size available:7/S-11/XXL

Model:36420

Anti-Chemical Winter Gauntlet Gloves

13 gauge seamless cotton and 7 gauge acrylic liner
Blue PVC sandy coated
Length:30cm
Size available: 8/M-11/XXL

Model:36820

Anti-Puncture Gloves

10 gauge seamless grey polyester with interlock liner
Double layer kevlar cloth & steel wire on palm and fingers
Green crinkle latex coated on palm
Size available: 7/S-10/XL

Model:72400

Anti-Cut & Impact Gloves

15 gauge seamless cut resistant liner with impact protection inside
Blue PVC fully coated
Safety cuff
Size available: 8/M-11/XXL

Model:37110

Anti-Impact & Anti-Chemical Gauntlet Gloves

15 gauge seamless nylon liner with impact protection inside
Blue PVC fully coated
Length:30cm
Size available: 8/M-11/XXL

Model:37120

Anti-Chemical Gauntlet PVA Coating Gloves

15 gauge T/C seamless knitted liner
Red PVA fully coated
Size available: 8/M-10/XL

Model:36830

Anti-Chemical Gauntlet EVOH PE Coating Gloves

Transparent PA, EVOH, PE PVA fully coated
Size available: 9/L-10/XL

Model:36840

5KV Dielectric Gloves

Red dielectric natural rubber latex
Ergonomic contoured shape
5KV high voltage safety protection
Length: 39cm

Model:IN001

10KV Dielectric Gloves

Red dielectric natural rubber latex
Ergonomic contoured shape
10KV high voltage safety protection
Length: 41cm

Model:IN002

Anti-Impact Mechanical Gloves

Grey synthetic leather with silicone dots palm
Hi-vi orange spandex back
TPR protection on the back and finger
Black diving cloth cuff
Size: S/7-10/XL

Model:48200

Mechanical Gloves

Grey synthetic leather palm
Grey/Red spandex back & cuff
Velcro wrist closure
Size: S/7-10/XL

Model:48210

Chainmail Gloves

High-strength 304L stainless steel ring
With adjustable wrist band for easy wear and fix
Size: S/7-10/XL

Model:76340

Chainmail Gloves

High-strength 304L stainless steel ring
Designed to protect the thumb & index & middle fingers
Size: S/7-10/XL

Model:76350

Mechanical Gloves

Black synthetic leather with anti-shock padding
Hi-vi yellow spandex & black diving cloth back
Velcro wrist closure
Size: S/7-10/XL

Model:48220

Mechanical Gloves

Black synthetic leather with anti-shock padding
Grey spandex cloth back
PVC protection on the back and finger
Black diving cloth cuff
Size: S/7-10/XL

Model:48230

Chainmail Gloves

High-strength 304L stainless steel ring
With adjustable Y band for easy wear and fix
Long sleeve protection
Size: S/7-10/XL

Model:76330

Mitten Mechanical Gloves

Black synthetic leather with anti-shock padding
Yellow spandex cloth back
Velcro wrist closure
Size: S/7-10/XL

Model:48240

Mechanical Gloves

Black synthetic leather with anti-shock padding
Yellow spandex cloth back
Velcro wrist closure
Size: S/7-10/XL

Model:48250

Mechanical Gloves

Black synthetic leather with anti-shock padding
Yellow spandex cloth back
Velcro wrist closure
Touch screen on Thumb & index finger & Middle finger
Size: S/7-10/XL

Model:48280

Anti-Cut Mechanical Gloves

Grey synthetic leather with anti-cut fabric palm
Hi-vi yellow spandex cloth back
Black diving cloth cuff
Size: S/7-10/XL

Model:48290

Mechanical Gloves

Black synthetic leather with anti-shock padding
Grey spandex cloth back
Black diving cloth cuff with Velcro wrist closure
Size: S/7-10/XL

Model:48370

Mitten Mechanical Gloves

Black synthetic leather with anti-shock padding
Black spandex cloth back
Velcro wrist closure
Size: S/7-10/XL

Model:48380

Anti-Impact Mechanical Gloves

Black synthetic leather
Hi-vi orange spandex cloth back
PVC protection on finger
Black diving cloth cuff with velcro wrist closure
Size: S/7-10/XL

Model:48300

Mechanical Gloves

Black synthetic leather with anti-shock padding
Yellow spandex cloth back
Velcro wrist closure
Touch screen on index fingertip
Size: S/7-10/XL

Model:48310

Mechanical Gloves

Black synthetic leather with Anti-shock padding
Hi-vi yellow spandex cloth back & cuff
Size: S/7-10/XL

Model:48390

Mechanical Gloves

Black synthetic leather
Grey spandex cloth back & cuff
Size: S/7-10/XL

Model:48440

Mechanical Gloves

Grey synthetic leather with silicone dots palm
Grey spandex back
Black diving cloth cuff with Velcro wrist closure
Size: S/7-10/XL

Model:48320

Mechanical Gloves

Black polar fleece with silicone dots palm
Touch screen on thumb & index fingertip
Elastic cuff
Size: S/7-10/XL

Model:48340

Mechanical Gloves

Mechanical Gloves
Grey synthetic leather
Black spandex cloth back and cuff
Size: S/7-10/XL

Model:48410

Mechanical Gloves

Black synthetic leather with anti-shock padding
Red spandex cloth back & cuff
Size: S/7-10/XL

Model:48424

Anti-Cut PU Coated Gloves

13 gauge grey HPPE fiber seamless liner
Grey PU coated on palm
Size available: 7/S-11/XXL

Model:70413

Anti-Cut PU Coated Gloves

13 gauge grey HPPE fiber seamless liner
Grey PU coated on palm
Reinforced thumb crotch
Size available: 7/S-11/XXL

Model:70413R

Anti-Cut Micro-Foam NBR Coated Gloves

13 gauge hi-vi yellow HPPE fiber seamless liner
Black micro-foam nitrile coated on palm
Cut resistant level:C
Size available: 7/S-11/XXL

Model:71533

Anti-Cut Micro-Foam NBR Coated Gloves

13 gauge hi-vi green HPPE fiber seamless liner
Black micro-foam nitrile coated on palm
Cut resistant level:C
Size available: 7/S-11/XXL

Model:71583

Anti-Cut PU Coated Gloves

15 gauge blue HPPE fiber seamless liner
Black PU coated on palm
Reinforced thumb crotch
Cut resistant level: E
Size available: 7/S-11/XXL

Model:70415

Touch Screen Anti-Cut PU Coated Gloves

18 gauge green HPPE fiber seamless liner
Black PU coated on palm
Touch screen on thumb & index fingertip & middle fingertip
Cut resistant level: E
Size available: 7/S-11/XXL

Model:70418

Long Cuff Anti-Cut Micro-Foam NBR Coated Gloves

13 gauge grey HPPE seamless liner
Black sandy nitrile coated on palm
Cut resistant level:C
Size available: 7/S-11/XXL

Model:71553

Anti-Cut Micro-Foam NBR Coated Gloves

15 gauge blue HPPE fiber seamless liner
Black micro-foam nitrile coated on palm
Reinforced thumb crotch
Touch screen
Cut resistant level:E
Size available: 7/S-11/XXL

Model:71615

Anti-Cut PU Coated Gloves

18 gauge grey HPPE fiber seamless liner
Black PU coated on palm
Cut resistant level: E
Size available: 7/S-11/XXL

Model:70421

Anti-Cut Micro-Foam NBR Coated Gloves

13 gauge grey HPPE fiber seamless liner
Black micro-foam nitrile coated on palm
Cut resistant level:C
Size available: 7/S-11/XXL

Model:71403

Touch Screen Anti-Cut Micro-Foam NBR Coated Gloves

18 gauge green HPPE fiber seamless liner
Black micro-foam nitrile coated on palm
Reinforced thumb crotch
Touch screen
Cut resistant level:E
Size available: 7/S-11/XXL

Model:71319

Touch Screen Anti-Cut Micro-Foam NBR Coated Gloves

18 gauge black HPPE fiber seamless liner
Black micro-foam nitrile coated on palm
Reinforced thumb crotch
Touch screen
Cut resistant level:E
Size available: 7/S-11/XXL

Model:71316

Anti-Cut Micro-Foam NBR Coated Gloves

18 gauge grey HPPE fiber seamless liner
Black micro-foam nitrile coated on palm
Cut resistant level:E
Size available: 7/S-11/XXL

Model:71318

Touch Screen Anti-Cut Micro-Foam NBR Coated Gloves

21 gauge grey HPPE fiber seamless liner
Black micro-foam nitrile coated on palm
Touch screen
Cut resistant level:E
Size available: 7/S-11/XXL

Model:71521

Touch Screen Anti-Cut Sandy NBR Coated Gloves

18 gauge grey HPPE seamless liner
Black sandy nitrile coated on palm
Reinforced thumb crotch
Touch screen
Cut resistant level: E
Size available: 7/S-11/XXL

Model:71038

Anti-Cut Sandy NBR Coated Gloves

21 gauge grey HPPE seamless liner
Black sandy nitrile coated on palm
Cut resistant level: E
Size available: 7/S-11/XXL

Model:71511

Anti-Cut Sandy NBR Coated Gloves

13 gauge grey HPPE seamless liner
Black sandy nitrile coated on palm
Reinforced thumb crotch
Cut resistant level:C
Size available: 7/S-11/XXL

Model:71523R

Touch Screen Anti-Cut Sandy NBR Coated Gloves

15 gauge blue HPPE seamless liner
Black sandy nitrile coated on palm
Reinforced thumb crotch
Touch screen
Cut resistant level: E
Size available: 7/S-11/XXL

Model:71625

Anti-Cut Sandy NBR Fully Coated Gloves

13 gauge grey HPPE seamless liner
Blue smooth nitrile fully coated+black sandy nitrile coated on palm.
Cut resistant level: C
Size available: 7/S-11/XXL

Model:71613

Anti-Cut Sandy NBR Coated Gloves

13 gauge aramid fiber seamless liner
Black sandy nitrile coated on palm.
Size available: 7/S-11/XXL

Model:71593
